#### SUMMARY

Front-end developer with 2 years of experience creating visually appealing and interactive user interfaces. Seeking a position where I can utilize my strong technical skills in HTML, CSS, JavaScript, and front-end frameworks to contribute to innovative web development projects.

### **EDUCATION**

#### Bachelor in Computer Forensic (Honours), **Management & Science University**

- Cybercrime Investigation
- Digital Forensics Techniques
- Legal and Ethical Considerations
- Analytical and Technical Skills

#### Pre Engineering, **Government Degree Science & Commerce College**

2012 June – 2014 June | Karachi, Pakistan

Pre-engineering is centered around mathematics, physics, and chemistry. These subjects are considered fundamental for engineering disciplines and form the core of the pre-engineering curriculum. To develop problem-solving skills, logical thinking abilities, and analytical reasoning, which are essential for engineering studies.

#### Science, St. Francis High School

2010 February – 2012 February Karachi, Pakistan

2018 July - 2022 September

SHAH ALAM, Malaysia

It places a strong emphasis on science-related subjects. Core subjects typically include Mathematics, Physics, Chemistry, Biology, and English. To provide a solid foundation in these subjects and develop critical thinking, analytical skills, and problem-solving abilities.

## PROFESSIONAL EXPERIENCE

#### Software Engineer, LITTLEGENIUS INTERNATIONAL SDN. BHD.

2022 October - present | Setapak, Malaysia

- Developed and maintained responsive web applications using HTML, CSS, and JavaScript.
- Implemented front-end frameworks (Bootstrap) to create dynamic user interfaces.
- Collaborated closely with designers for pixel-perfect UI/UX implementation.
- Optimized website performance through code and asset optimization.
- Integrated third-party APIs for enhanced functionality.

#### PHP Web Developer Internship, Zeto Travel Sdn Bhd

2022 March - 2022 August | Klang, Malaysia

- Developed and maintained robust web applications using PHP, HTML, CSS, and JavaScript.
- Utilized PHP frameworks (Codelgniter) to accelerate development and ensure code reusability.
- Designed and optimized relational databases, writing efficient SQL queries for data retrieval and manipulation.
- Collaborated closely with designers and front-end developers to integrate front-end components seamlessly.
- Conducted rigorous testing and debugging to identify and resolve issues.
- Implemented security measures to protect web applications from common vulnerabilities.
- Worked in an agile development environment, participating in daily stand-ups and sprint planning meetings.

#### **Distribution Executive,**

#### **HL Media Corporation (PVT). Limited -7News**

- 2015 May 2017 May | Karachi, Pakistan
- Oversaw end-to-end distribution operations, including order fulfillment, inventory management, and logistics coordination.
- Developed and executed distribution strategies to optimize efficiency, reduce costs, and improve customer satisfaction.
- Managed a team of distribution staff, providing leadership, training, and performance management.
- Implemented process improvements to streamline operations, enhance productivity, and reduce errors.
- Collaborated with cross-functional teams (sales, purchasing, production) to ensure seamless coordination and alignment of distribution activities
- Evaluated and managed vendor relationships to ensure optimal service levels and cost-effectiveness.
- Developed and maintained strong relationships with customers to understand their distribution needs and provide effective solutions.

#### IT Executive, Awaz Television Network (PVT). Limited

2015 January – 2016 February karachi, Pakistan

- Led the strategic planning and execution of IT initiatives, aligning technology investments with business objectives.
- Managed IT operations, overseeing network infrastructure, systems administration, and help desk support.
- Developed and implemented IT policies, procedures, and standards to ensure operational efficiency and compliance.
- Oversaw the successful implementation of major IT projects, including system upgrades and migrations.
- Managed vendor relationships, negotiated contracts, and met service-level agreements.
- Developed and managed IT budgets, optimizing resource allocation and cost-effectiveness.
